By persistently expanding and diversifying our revenue streams, BIGO’s advertising business maintained rapid growth, emerging as a key driver behind our topline recovery. Our focus on operational refinement across all areas and cost optimization has led to improved efficiency, driving a quarter-over-quarter increase in both GAAP and non-GAAP net profits. Live streaming revenues were US\$459.7 million in the second quarter of 2024, compared to US\$477.0 million in the corresponding period of 2023.

Other revenues increased by 49.8% to US\$105.4 million in the second quarter of 2024 from US\$70.4 million in the corresponding period of 2023, primarily due to the substantial growth of our advertisement revenues as we strategically expanded and diversified the revenue streams of BIGO.

COST OF REVENUES AND GROSS PROFIT

Cost of revenues increased by 4.8% to US\$366.2 million in the second quarter of 2024 from US\$349.6 million in the corresponding period of 2023.

Revenue-sharing fees and content costs increased to US\$263.9 million in the second quarter of 2024 from US\$222.6 million in the corresponding period of 2023, mainly driven by increased traffic acquisition costs paid to third-party partners in relation to our advertising business.

Operating expenses were US\$198.7 million in the second quarter of 2024, compared to US\$191.7 million in the corresponding period of 2023. Among the operating expenses, research and development expenses decreased to US\$69.9 million in the second quarter of 2024 from US\$75.5 million in the corresponding period of 2023, primarily due to decreases in salaries and welfare of US\$2.6 million and share-based compensation expenses of US\$2.2 million. General and administrative expenses increased to US\$40.7 million for the second quarter of 2024 from US\$29.0 million in the corresponding period of 2023, primarily due to an impairment loss arising from equity investments.

Use of Non-GAAP Financial Measures

The unaudited condensed consolidated financial information is prepared in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”). JOYY uses non-GAAP operating income, non-GAAP operating (loss) margin, non-GAAP net income (loss) attributable to controlling interest of JOYY, non-GAAP net income (loss) margin attributable to controlling interest of JOYY, non-GAAP net income (loss) attributable to common shareholders of JOYY, and basic and diluted non-GAAP net income (loss) per ADS, all of which are non-GAAP financial measures adjusted from the most comparable U.S. GAAP results. Non-GAAP operating income (loss) is operating income (loss) excluding share-based compensation expenses, impairment of goodwill and investments, amortization of intangible assets from business acquisitions, and gain (loss) on disposal of subsidiaries and business. Non-GAAP operating (loss) margin is non-GAAP operating income as a percentage of net revenues. Non-GAAP net income (loss) is net income (loss) excluding share-based compensation expenses, impairment of goodwill and investments, amortization of intangible assets from business acquisitions, gain (loss) on disposal of subsidiaries and business, gain (loss) on disposal and deemed disposal of investments, gain (loss) on fair value change of investments, reconciling items on the share of equity method investments (referring to share of income (loss) from equity method investments resulting from non-recurring or non-cash items of the equity method investments), gain (loss) on extinguishment of debt and derivative, interest expenses related to the convertible bonds’ amortization to face value, and income tax effects of the above non-GAAP reconciling items. Non-GAAP net income (loss) attributable to controlling interest of JOYY is net income (loss) attributable to controlling interest of JOYY excluding share-based compensation expenses, impairment of goodwill and investments, amortization of intangible assets from business acquisitions, gain (loss) on disposal of subsidiaries and business, gain (loss) on disposal and deemed disposal of investments, gain (loss) on fair value change of investments, reconciling items on the share of equity method investments, gain (loss) on extinguishment of debt and derivative, interest expenses related to the convertible bonds’ amortization to face value, income tax effects of the above non-GAAP reconciling items and adjustments for non-GAAP reconciling items for the net (loss) income attributable to non-controlling interest shareholders. Non-GAAP net income (loss) margin is non-GAAP net income (loss) attributable to controlling interest of JOYY as a percentage of net revenues. Non-GAAP net income (loss) attributable to common shareholders of JOYY is net income (loss) attributable to common shareholders of JOYY excluding share-based compensation expenses, impairment of goodwill and investments, amortization of intangible assets from business acquisitions, gain (loss) on disposal of subsidiaries and business, gain (loss) on disposal and deemed disposal of investments, gain (loss) on fair value change of investments, reconciling items on the share of equity method investments, gain (loss) on extinguishment of debt and derivative, interest expenses related to the convertible bonds’ amortization to face value, accretion, cumulative dividend and deemed dividend to subsidiaries’ preferred shareholders, gain on repurchase of redeemable convertible preferred shares of a subsidiary and income tax effects of above non-GAAP reconciling items and adjustments for non-GAAP reconciling items for the net income (loss) attributable to non-controlling interest shareholders. After the non-GAAP adjustment, non-GAAP net income (loss) attributable to controlling interests of JOYY is equal to the non-GAAP net income (loss) attributable to common shareholders of JOYY. Basic and diluted non-GAAP net income (loss) per ADS is non-GAAP net income (loss) attributable to common shareholders of JOYY divided by weighted average number of ADS used in the calculation of basic and diluted net income per ADS. The Company believes that separate analysis and exclusion of the non-cash impact of above reconciling items adds clarity to the constituent parts of its performance. The Company reviews these non-GAAP financial measures together with GAAP financial measures to obtain a better understanding of its operating performance. It uses the non-GAAP financial measure for planning, forecasting and measuring results against the forecast. The Company believes that non-GAAP financial measure is useful supplemental information for investors and analysts to assess its operating performance without the non-cash effect of (i) share-based compensation expenses and amortization of intangible assets from business acquisitions, gain (loss) on extinguishment of debt and derivative, interest expenses related to the convertible bonds’ amortization to face value, which have been and will continue to be significant recurring expenses in its business, (ii) impairment of goodwill and investments, gain (loss) on disposal of subsidiaries and business, gain (loss) on disposal and deemed disposal of investments, gain (loss) on fair value change of investments, reconciling items on the share of equity method investments, accretion, cumulative dividend and deemed dividend to subsidiaries’ preferred shareholders and gain on repurchase of redeemable convertible preferred shares of a subsidiary which may not be recurring in its business, and (iii) income tax expenses and non-GAAP adjustments for net income (loss) attributable to non-controlling interest shareholders, which are affected by the above non-GAAP reconciling items. However, the use of non-GAAP financial measures has material limitations as an analytical tool. One of the limitations of using non-GAAP financial measures is that they do not include all items that impact the Company’s net income (loss) for the period. In addition, because non-GAAP financial measures are not measured in the same manner by all companies, they may not be comparable to other similar titled measures used by other companies. In light of the foregoing limitations, you should not consider non-GAAP financial measure in isolation from or as an alternative to the financial measure prepared in accordance with U.S. GAAP.

The presentation of these non-GAAP financial measures is not intended to be considered in isolation from, or as a substitute for, the financial information prepared and presented in accordance with U.S. GAAP. For more information on these non-GAAP financial measures, please see the table captioned “JOYY Inc. Unaudited Reconciliation of GAAP and Non-GAAP Results” near the end of this press release.
